HARVIA CXWIFI

CX004WIFI

The modern and stylish Harvia Xenio WiFi is a sauna control panel. The control panel can be connected to a LAN.

Advantages

- A remote control package for Harvia Xenio control units, which allow the WiFi remote use of the sauna. ETL certifield sauna product is always safe and reliable.

- Enjoy the wireless experience with Xenio WiFi control. Connect the control panel to the local WiFi network and control your sauna's functions with the MyHarvia application.

- Using the MyHarvia application, you can control various functions, such as the sauna temperature, humidity, lighting and ventilation. The features vary depending on the device attached to the system. Learn more about the free MyHarvia application in Google Play or App Store!

- The advanced functions make it easier to use the sauna daily and give you many new options. For example, select the time when you want to go in the sauna, and MyHarvia will tell you when it is ready. Always see your sauna's status on your phone.

- The Xenio WiFi accessory package also enables easy installation into an existing control unit. Read more about compatible control units: https://mediabank.harvia.com/catalog/Harvia/r/3037
